

THE CERAMIC FIGURES OF DAVID LOVELL

David Lovell is one of WCMS's quiet achievers. After some health issues in the past couple of years which restricted David's ability to climb to the top of the main mast of James Craig, the tall ship berthed in Darling Harbour, David turned his attention to creating ceramic sculpture figures which he exhibited at the November'19 Show.

The work is beautiful and created great interest among the visitors.

WELL DONE!
